

The story of LI'L JACK....

It was a cloudy morning and the clouds Were filled with rain and we were getting Ready for a down pour just like the one We had gotten the previous night... When The guys from GRINDEM OUTFITTERS...JACK and GORD took us out for a Turkey Hunt....

Our spirit wasn't too high but JACK and GORD had faith they could make something happen for us ... So we headed For the bush where the guys had seen Some gobblers a few days earlier. Boy.... GORD threw at them the Best of The best.... Yelps, Cuts, Cackles, Purs...Fighting purs and all... Nothing to do the Gobblers were no where to be seen or Heard.

So We decided to go for breakfast and called JACK and my son JONATHAN(who Also hadn't seen or Heard any birds)... so they could hook up with us at the restaurant... While doing so... We Spotted two gobblers near another bush... That's when our story became interesting...

GORD decided to Hunt these birds...TENNESSE style...So we all got together in order to gang-up on Them and... got going ...sneaking-up on them.. We got closer to them and then sat down And let GORD do his magic... It wasn't Long that one of the birds. Got interested in us but didn't want to jump Over a little pond we hadn't seen... So GORD said let split up.... We'll move and cover the front while you guys cover The back... So we went a little further And set up... Jack started calling.. We waited... Nothing.... Nothing that is until Jack reached down his pants and pulled Out his Little Jack... He started to stroke His Little Jack gently and softly... And sure enough we heard a gobble ... That's When it all started.... Jack took a good Hold of his Little Jack and started to Stroke it long and hard.... Man it got that Gobbler all excited.... Seemed like Jack was all excited himself.... Anyways that Gobbler came straight for us and in an instant.

It appeared right in front and... BOOM....I took it down. Nice bird, 18 to 20 lbs... 1 " inch spurs and A beard of approx. 9" inch.(See attached Picture)

JACK and his Little Jack call from Primo's Really did the job... No doubt about it....

You can't beat a pair of Jack !!!!

JACK and GORD from GRINDEM Outfitter Thanks a Lot for a great turkey hunt"Tennessee style"... My son and I had a great time... Definately a hunt that we Will remember. Thanks!
